## MESSAGE FROM THE CHAIR

**ROBERT BRADLEY**  
2009 TASMANIAN SCHOLAR

### Welcome to Nuffield Farming Scholarships.

I am proud to introduce myself as the Chair of Nuffield Australia, a position I have held since September 2019. Nuffield is the leading program for primary producers in Australia which identifies new leaders for industry and communities through capacity building. It is also part of a global network of over 1,800 scholars from many other countries.

Scholars represent many rural industries and are selected on merit as people committed to their industry sector and are typically engaged with their regions and communities.

We are pleased to announce the opening of the 2023 round of farming scholarships.

I encourage you to apply to become a part of our worldwide agricultural network.

- **NUFFIELD OFFERS A LEVEL OF ACCESS** that no other scholarship program has, with an approachable, global network
- A chance to see leading and innovative businesses and identify new best practices and ideas
- Forge connections with the global alumni network – 495 Scholars in Australia and 1,800 worldwide

**JESSICA CONLAN**

2022 SCHOLAR

“

My Nuffield Scholarship is allowing me to gather knowledge from across the globe into how to finish lambs on grass. Global data backs grass-fed Australian lamb as an increasingly valuable commodity, and an industry priority to cement our position of quality and innovation.

# PROGRAM COMPONENTS

- **2022 Nuffield Australia National Conference** is a chance to meet the Nuffield network and agri-business leaders, receive a briefing about the program and formally be awarded the scholarship.
- **2023 Contemporary Scholars Conference (CSC)** is a week-long program for all newly-selected scholars from around the world. Scholars build networks and consider international trade and policy issues affecting agriculture. Scholars share and learn about different cultures, represent their country and industry, and enhance their leadership skills.
- **2023–24 Global Focus Programs (GFP)** offer a four-week, group travel experience spent in various countries. Scholars investigate agricultural production, marketing, trade, environmental issues and experience social and cultural aspects of each region.
- **2023–24 Individual Study Program** enables scholars to travel to countries of choice to study their chosen individual research topic.
- **Both written and verbal reporting** is a requirement of the scholarship and these are completed following the 14 weeks of research, as specified by Nuffield Australia.

**Note:** Financial assistance to the value of \$30,000 (subject to conditions) is provided to cover costs associated with the study period. Likely costs exceeding this value must be met by the scholar

## SCHOLARSHIP CALENDAR

### 17 JUNE 2022

Applications close

### JULY 2022

State-based interviews held over three weeks

### 1–2 AUGUST 2022

*Regard will be given to the value of the experience that the applicant will gain through the study. All scholars must write a comprehensive report about the research findings. This report remains the property of Nuffield Australia and will be published at Nuffield Australia's discretion.*

“

Through my experience as a Nuffield Scholar I am confident I can provide progressive Australian beef producers with global insights and a strategic direction for business-complementary carbon projects.

JASMINE BOXSELL  
2022 SCHOLAR

# APPLY NOW!

Nuffield has been supporting innovative and progressive Australian producers since 1951. Nuffield is committed to developing future leaders in Australian agriculture who strive for excellence through its longstanding scholarship program.

Nuffield Australia has 495 alumni located across all States and Territories, from a broad cross section of industries.

Over the 70 years of Nuffield Australia, our scholars have been pivotal in influencing the development of new and emerging industries and are recognised as leaders not only in their communities and industries but also across Australian agriculture.
